

Driving Resilient and Sustainable Value Chains at Scale

We help organisations move beyond commitments toward credible, measurable, accessible, and scalable outcomes.

IDH Solutions is a social enterprise that partners with businesses, investors, and multilaterals to secure resilient value chains. We deliver practical tools, data-driven products, and tailored advisory services that enable organisations to navigate rapidly shifting environmental, social, and market dynamics.

Leveraging deep sector expertise and scalable, on-the-ground implementation, we help our partners accelerate sustainable transformation, manage risk, and unlock long-term commercial and societal value.

We combine strategic capabilities of a social enterprise with the practical on-ground delivery capability.

Implementation experience

Active in Africa, Asia, Europe, and South America with deep local presence

Strong local and global partnerships

Proven ability to convene and align buyers, suppliers, governments, CSOs, and financial actors

Proven tools and methodologies

From assessment to implementation: roadmaps, tools and program management

Deep sector and value chain expertise

From farm fields to factory lines: we make value chains work.

Our approach

IDH Solutions blends strategic insight with hands-on delivery to drive real market transformation.

Practical and adaptable solutions grounded in real operating contexts.

Stakeholder-centred design that builds ownership and long-term capability.

Data-forwarded and science-based methods to ensure credible decision-making.

A scaling mindset that moves from pilots to multi-country, multi-supplier implementation.

Our services enable partners to:

- ✓ **Make evidence-based** decisions through robust data, diagnostics, and insight.
- ✓ **Build internal and ecosystem** capabilities to deliver sustainable performance.
- ✓ **Strengthen coordination** across complex value-chain networks.
- ✓ **Drive continuous improvement** and scale proven solutions.

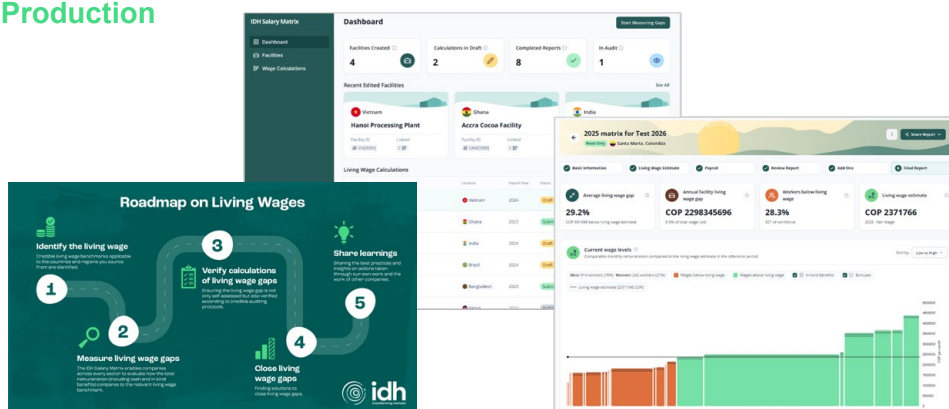

Each service can be deployed standalone or integrated into a broader transformation program — tailored to organisational ambition and context.

IDH Solutions provides modular, scalable service offerings that help organisations embed sustainability into core operations. We meet partners where they are—and accelerate their path to transformation.

Our services

1. Decent Work & Responsible Production

- Capacity building on the concept of Living Wage and Salary Matrix
- Data-driven, phased approach for Living Wage Gap Assessment and Closure
- Supplier and stakeholder engagement strategy
- Salary Matrix tool and data analysis

- Jurisdictional Approach

Our experience

Featured Projects

1. Living wage digital curriculum for the UN Global Compact

IDH Solutions created UNGC’s learning strategy and digital academy to drive living-wage implementation, informed by insights from 15 companies and their suppliers, focused on practical action-planning across global supply chains.

2. Advancing Living Wage Capability Across Unilever’s Supply Chain

IDH Solutions created living wage content and training to introduce the Living Wage and Living Wage Partner approach to Unilever’s priority suppliers—building the capabilities and engagement needed to advance living wage commitments across seven priority countries.

3. Life and Building Safety Initiative:

IDH Solutions brings together top apparel brands and retailers to coordinate sector-wide action on electrical, fire, and structural safety across Tier 1 and Tier 2 suppliers.

LABS works in four countries across India, Vietnam, Cambodia and Indonesia.

	Factories Onboarded	675
	Safety Training	1515
	Workers Reached	1,231,967
	Factories Graduated	250+

4. Women’s Safety Accelerator

The Women’s Safety Accelerator improves workplace safety for women. Solutions partners with brands, producers, suppliers and local organizations to identify risks, strengthen prevention and response systems, and foster safer, more inclusive workplaces. Through practical, on-ground interventions and shared learning, it turns gender commitments into concrete action.

	Women workers trained	~214,000
	Community members reached	505,000+
	Companies engaged	60+
	Factories reached	290+

Our clients

Partnering with companies, civil society, and multilateral institutions, we develop practical, market-based solutions that strengthen value chains and create inclusive, sustainable impact.

Connect with us

Achieving meaningful sustainability impact takes the right partnerships. By sharing your ambitions and challenges with us, we can co-create solutions tailored to your context and designed for scale.

Reach out to explore how we can accelerate your sustainability journey with measurable and accessible results.
